KAISER'S POLICY APPROVED. Federal Comell Committee Hears Report on the Morocean Affair. Special Cable Despatch to THE SUN.

BERLIN, July 12.-Chancellor Von Buelow to-day addressed the Foreign Affairs Committee of the Federal Council, detailing the events and negotiations that led to the recent exchange of notes with France. The incident is indicative of the supreme importance attached to the controversy by the Kaiser, for meetings of the committee are rare.

Indeed, it has only met three times since the establishment of the empire. Baron von Richthofen, Minister of Foreign Affairs, and the Ministers of Bavaria, Saxony, Wurtemberg and Baden and the representatives of the other federated States attended.

The Chancellor's statement was confidential. It is understood that besides the Morocco controversy he covered the present diplomatio situation.

The North German Gazette publishes a semi-official note saying that the federated Ministers expressed implicit confidence in the policy of the Empire as conducted by the Chanellor in accordance with the intentions of the Emperor.

Special Cable Despatch to THE SUN

PARIS, July 12 .- The report of the committee of experts who have been investigating Dr. Doyen's anti-cancer serum for five months has been presented to the Surgical Society. It is distinctly unfavorable. It admits that the application of the serum possibly caused a temporary improvement in some cases, thereby lessening the danger of subsequent operations but it never cured the disease. Twenty of the twenty-six cases examined became worse under the treatment. The report concludes by expressing the

AUTO THIEF CONVICTED. Fitzhugh's Brother a Witness

Against His Companions. By the conviction of Ernest Glendon yesterday the District Attorney's office believes that it has done a good deal toward breaking up a band of young men who have been stealing automobiles. Glendon was convicted of stealing an automobile belong-Scotch gillie, mistaken for a poacher, by ing to the Packard Motor Company that had been left outside of the Criterion Hotel.

Glendon and two other boys, Frank Purcell and William Fitzhugh, started for when the two sons of Mr. Phipps, who were Atlantic City with the automobile, but stopped at Paterson and returned. They were caught as they left the Cortlandt street ferry. Glendon, who is also known as Ernest Curry and "Yellow" Curry, is the young man who ran off with an automobile to Troy and gave the girls of the collar and cuff factories their first experiences of the fun of automobiling. Glendon was accompanied on the trip by Gooding Recinal, but was acquitted of the charge of stealing that machine. Recinal is now in the Tombs on the charge of stealing another \$10,000 machine.

Fitzhugh, who is a brother of Anna Fitzhugh, the actress, was a witness against his companions. Purcell was acquitted, but doesn't get his liberty. He had been in the Catholic Protectory for some time and was a member of the band. He went with the band to The McManus's picnic, but after that the Protectory saw him not. Judge Cowing ordered that he be sent back. Clendon's mother was a witness for him.

She testified that she had a talk with young Fitzhugh and that he had told her that she needn't worry about her son as his sister was a great friend of E. R. Thomas. "Young Fitzhugh told me," she testified, "that Mr. Thomas was going to get him out

TO PROBE COTTON SCANDAL.

NEW INVESTIGATION ORDERED BY THE PRESIDENT.

District Attorney Beach Has Aiready Begun the Work and Has Let It Be Known That the Very Greatest Secreey Will Be Observed in Conducting It

WASHINGTON, July 12 .- The new investition of the cotton leak scandal ordered by President Roosevelt was begun by District Attorney Beach to-day. He had before him all the papers relating to the case, and spent some time in mapping out a course of action in accordance with the general instructions received by him from the Department of Justice. It is believed at the Department of Justice that the evidence brought to light by the first investigation will form a basis upon which the District Attorney will be able to make out a case against Edwin S. Holmes, Jr., and a least one or two others but this opinion has not been officially stated, and the Attorney-General's office is silent as to the legal phases of Holmes's misconduct.

The District Attorney has let it be known that the greatest secrecy will be observed in the investigation, for the nature of the inquiry is such that its successful outcome, in Mr. Beach's opinion, requires the utmost caution on the part of the investigators. There is a strong feeling in the District Attorney's office that the matter has not been handled with discretion heretofore, and that the investigating officers will from now on be laboring under a serious handicap.

Mr. Cheatham is bent on securing the removal of John Hyde, chief of the Bureau of Statistics of the Department of Agri-

culture, ostensibly on the ground that Mr. Hyde allowed the manipulations of Associate Statistician Holmes to go on, supposedly without the chief's knowledge. The sum and substance of the opinion of Acting Attorney-General Hoyt after examining the papers submitted to him yes-terday by Secretary of Agriculture Wison may be summed up in these words; "The papers indicate that the end has not been reached in the cotton matter, and that there ought to be a further and detailed legal examination.

New Orleans, July 12.—President A.
Brittin of the New Orleans Cotton Exchange
to-day addressed the following letter to
President Roosevelt:

The recent exposure in the Statistical Bureau of Agriculture, Cotton Department, has developed a situation which in cotton trade circles for many months past has been so strongly suspected, from apparent inditrade circles for many months past has been so strongly suspected, from apparent indications, as to amount to a positive conviction of wrongdoing. And now that the exposure has been publicly announced, a feeling of intense indignation pervades the trade, interested in fair dealing, by reasons of the department having been used by a clique of corrupt speculators to promote their individual and selfish ends. And that it should be known who have been the beneficiaries, the corrupters and the corrupted as well.

With this end in view I am directed by the board of directors of this exchange to address you direct and invoke your good offices in having a searching investigation carried on until the whole matter is probed to the core and the results given to the public. I beg to assure you our people here are already profoundly impressed and gratified with your continuing disapproval and condemnation of impure methods in governmental affairs, and your unylelding disposition to dismiss from the service unfaithful agents, and therefore anticipate your good efforts in responding to this appeal.

LETTER ON COTTON LEAK. Exchange Asks President Roosevelt to Hunt Out the Knaves.

At the opening of business at the Cotton Exchange yesterday morning Supt. William V. King informed the members that a letter had been sent to President Roosevelt asking that a full investigation be made of the cotton leak scandal and stating the view of the exchange to the President Supt. King read the letter, which follows. He was interrupted occasionally by cheer-

The Hon. Theodore Roosevelt, President of the United States, Washington, D. C.
DEAR SIR: On behalf of the New York Cotton Exchange I want to say that its members have been greatly shocked by the recent disclosures of venality in the Department of Agriculture, upon whose reports they have depended for accurate information in the conducting of their common business.

I beg to request that a full investigation be made of the methods which led to the corruption, with a view of preventing the possibility of recurrence and that the guilty ones be adequately punished.

Official reports should be above the suspicion of publications in the interest of any persons for their individual benefit, and as president of this exchange I wish to put its members upon record as utterly opposed to such culpable proceedings.

On the line of common honesty I ask you for your most emphatic condemnation and action upon the practises which make legitimate business impossible and put the members of our body at the mercy of tricksters and knaves.

FINDS FAULT WITH DEBS. Returning Delegate From Chicago Socialist Convention Not Sangaine About It.

The New York delegates to the Chicago convention of Socialists which organized The Industrial Workers of the World, in opposition to the American Federation of Labor, returned to this city yesterday. According to Comrade Charles Kiehn, who represented the longshormen, a damper was p.t on the convention by Eugene V. Debs' leaving and not returning after

V. Debs' leaving and not returning after he had made a speech.

Kiehn said that the convention represented, among other people, "Marxists, theoretic anarchists and pure and simple trades unionists." He was greatly impressed with the convention when he went there first, he said, but when it was over he felt convinced that the workers would not meet with the success its leaders predicted. On the whole, however, it might give a boost to socialism, but he thought it would have been much better for the convention if Debs had remained until it was over. Debs had remained until it was over.

Kiehn is a member of the Social Demoratic party, which as a body is in favor of the American Federation of Labor. He went to the convention not as a delegate of the party, but of his union.

UNPOPULAR AUTOS BURNED John Shepard, Jr., Had Five in His Barn Rufned and Farmers Rejoice

LAKEVILLE, Conn., July 12.-The fine barn of John Shepard, Jr., the millionaire proprietor of a Providence, R. I., store, at his summer home, Ravinehurst, in the town of Sheffield was burned last night In the barn were five valuable automobiles and it is thought the fire started from one of the machines. Mr. Shepard was enter-taining a house party of friends, and yes-

taining a house party of friends, and yesterday they were out in some of the autos. The machines were valued at between \$3.000 and \$4.000 apiece and were ruined. The loss on the barn is \$5.000.

Mr. Shepard's automobiles have been unpopular among the farmers hereabouts, as many regarded the manner in which they speeded over the roads as reckless. There was some quiet rejoicing to-day among those who had dreaded meeting the autos. It was hinted by some that the fire might have been of incendiary origin. Mr. Shepard will quickly replace both the barn and the autos, it was said both the barn and the autos, it was said
